Profile

Dedicated and ambitious vehicle engineering enthusiast with a keen interest in automotive technology and design. Strong problem-solving skills and a detail-oriented approach to vehicle systems. Eager to learn and contribute to the field of vehicle engineering, with a focus on innovation, efficiency, and sustainability.

Education

- High School Graduate
Emirates School Establishment
Graduated with an average of 94.14%, a GPA of 3.96 and a letter grade of A+.

- SoloLearn Courses
Completed multiple courses and achieved certificates upon completion.

Skills

- HTML
- CSS
- UX/UI Design
- Front-End Web Development
- Technological Proficiency
- Detail-Oriented
- Problem-Solving
- Communication & Interpersonal Skills

Languages

- Arabic – English

Experience

Hovering Car (Personal Project)

- Sketched a concept for a hovering car using innovative engineering techniques.
- Researched vehicle levitation technologies and aerodynamics for informed design.
- Created plans and diagrams to demonstrate the concept's potential.

Sustainable Bus (Personal Project)

- Developed a sustainable bus design with eco-friendly materials and energy-efficient systems.
- Integrated researched sustainable transportation technologies into the bus design.
- Created visualisations to showcase the concept's impact.

Futuristic Car (Personal Project)

- Designed a futuristic car concept with advanced technologies and cutting-edge materials.
- Explored features like autonomous driving, smart glass, and gliding wheels.
- Created sketches to showcase the futuristic design's potential.

Front-end Web Development (Personal Project)

- Designed and coded a responsive e-commerce website using HTML, CSS, and JavaScript.
- Implemented features like product listings, shopping cart, and user authentication.
- Conducted testing and troubleshooting for a smooth user experience.

Landing Page Design (Personal Project)

- Created visually appealing and responsive landing pages using UI design skills and Lunacy software.
- Optimised layouts and visuals to engage users effectively.
- Improved designs based on feedback.

Portfolio Website Development (Personal Project)

- Created a responsive portfolio website with HTML, CSS, and JavaScript.
- Designed a visually appealing user interface.
- Ensured seamless user experience across multiple devices.
